ABOUT KORAB RESOURCES

Korab Resources Ltd is an Australian mining and exploration company with operations in the Northern Territory of Australia. Korab's Rum Jungle Project is located near the town of Batchelor, approximately 60 km south of Darwin. Rum Jungle Project is intersected by Stuart Highway and the Darwin-Adelaide railway line. Rum Jungle Project includes Winchester magnesium deposit, Geolsec phosphate deposit¹, Sundance gold deposit, and multiple gold, silver, gallium, magnet REO, heavy REO, scandium, copper, cobalt, nickel, lithium, lead, zinc, and tin prospects. More information about Korab's Rum Jungle Project can be sourced from Korab's website at www.korab.com.au.

DISCLAIMER AND CAUTIONARY STATEMENT

Forward-looking statements are statements that are not historical facts. Words such as "expect(s)", "expected", "feel(s)", "believe(s)", "will", "may", "anticipate(s)", "should", "envisage(s)" and similar expressions are intended to identify such forward-looking information. This information includes, but is not limited to statements regarding future exploration results, resources, or reserves, and production. Anyone reading this report is cautioned not to place undue reliance on these forward-looking statements. All of such statements are subject to risks and uncertainties (many of which are difficult to predict and which generally are beyond the control of the Company) that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include, but are not limited to: those relating to the interpretation of exploration results (including drill results), the geology, grade and continuity of mineral deposits and conclusions of economic evaluations; risks relating to possible variations in reserves, grade, mining dilution, ore loss, and recovery rates; risks relating to changes in project financial and technical parameters; risks relating to the potential for delays in exploration programs, project evaluation/review, completion of feasibility studies and project development; risks related to commodity prices and foreign exchange rate fluctuations; risks related to failure to secure adequate financing on

¹ Geolsec mineral lease is subject to a sale agreement as reported on 31 March 2026.
